

1. Academic Background and Technical Knowledge:

- **Coursework and Projects:** Discuss significant projects or research you've undertaken during your undergraduate studies, emphasizing your role, methodologies, and outcomes.
- **Fundamental Concepts:** Expect questions on core electrical engineering topics to assess your foundational knowledge.

2. Motivation and Interest in SMU:

- **Program Choice:** Articulate why you've chosen SMU and this specific program, highlighting aspects like faculty expertise, research facilities, or the university's focus areas.
- **Alignment with Goals:** Explain how this program aligns with your career aspirations and academic interests.

3. Understanding of the Field:

- **Industry Trends:** Demonstrate awareness of current trends and challenges in electrical engineering, particularly in areas related to maritime applications.

4. Adaptability and Cross-Cultural Competence:

- **Studying Abroad:** Reflect on your readiness to adapt to a new cultural and academic environment, emphasizing qualities like resilience and openness.

5. Future Plans:

- **Career Objectives:** Outline your short-term and long-term career goals and how the program at SMU will facilitate achieving them.
